Message

I am immensely happy to learn that the Nagpur Neuro Society (NNS) is organizing annual conference this year along with 4th Late Dr. G. M. Taori Oration in the vibrant state Goa. I extend a warm welcome to all the dignitaries, delegates and eminent neuroscience faculties from across Vidarbha who are participating in this prestigious event.

Neuroscience is a cornerstone of medical science. Understanding the complexities of the human brain and nervous system is essential for advancing patient care, research and innovation.

I wish all the best for this event and extend warm welcome again to all of the delegates and dignitaries.

With regards.

Yours

My Dear Friends!

As the season hots up in Vidarbha it reminds us about a man born on 1st June and was destined to bring neurosciences to the underprivileged part of Maharashtra with no such facility whatsoever in those days. Who knew that a humble beginning of neurosciences by a giant of neurology Dr. GM Taori will one day boom and flourish under the sizzling scorching Vidarbha sun and bake many neurologists and neurosurgeons of national/international repute.

Fellows, now it's time to organise a world class one and half-day long neurosciences extravaganza in the memory of Dr. Taori. With majority's opinion this time it's planned at Goa. It will be a fantastic combo of fine neurosciences learnings, fun and frolic. Please come with your spouses to make the best of all available. The organising committee is leaning no stone unturned to make it a great success.

DR. LOKENDRA SINGH
President NNS

DR. DHRUV BATRA

Dr. JAYANT PANDE
Neurologist

Founder member of Nagpur Neuro Society

Late Dr G. M. Taori, undoubtedly, was the pioneer of Neurosciences in central India, who single handedly laid the foundation stone of Neurology, Neurosurgery & other allied neuro sub-specialities in this region. Besides being an astute clinician he was keenly interested in research in neurosciences. The well equipped research laboratory at the CIIMS (Central India Institute of Medical sciences) at Nagpur bears the testimony of his research abilities.

Dr. Taori was a kind hearted & straight forward gentleman, an avid teacher but a very disciplined person who would be the first one to arrive at the CIIMS at sharp 8 AM in the morning. Besides clinical work he would be there doing the administrative work throughout the day. He was a true Gandhian at heart and his motto in life was "simple living and high thinking". No one ever saw him in the campus in any attire other than white clothes and slippers.

Nagpur Neuro Society was his brain-child. It all started with barely 6 members way back in 1987 and the only activity then was a clinical meeting once a month. Gradually it has grown to its present stature with more than 100 members. Besides monthly clinical meetings it also holds a journal club once a month. Nagpur Neuro Society was the host who had organized several national level annual conferences in Nagpur till today- Indian Academy of Neurology & Indian Epilepsy Association in 2004, Neurological Society of India in 2022, Mid-West annual conference of NSI in 2023 and many more.

Late Dr G. M. Taori Oration and Annual Day (CME in neurosciences) was started 3 years back in fond memory of this giant in Neurology and this is the 4 th such event which will be held at Bambolim Beach Resort, Goa on 30 th and 31 st May 2025.

I wish the conference a grand success.
